

Antenna Mounts

800/900 MHz, or >10"(254 mm) In Width

FOR DIRECTIONAL ANTENNAS

Hardware & Accessories

DB5083-NLT Tilt Bracket:

Optional downtilt bracket providing direct tilt adjustments for up to 15° in 1° increment. Features a locking pin that assures tilt angle lock down. For antennas with 3 point mounts, order DB5083D-NLT.

DB5084-AZ Variable Azimuth Wall Mount:

Optional brackets for wall mounting provide azimuth rotation from +45° to -45°, minimizing required clearance from the wall.

800TREEKIT dB TripleTree™ Mounting Kit:

Optional mounting kit for mounting multiple antennas to a single pole or stand. Order one kit for each antenna. Fits 3.5" or 4" O.D. pole.

800PIPEKIT Multi-Antenna Mounting Kit:

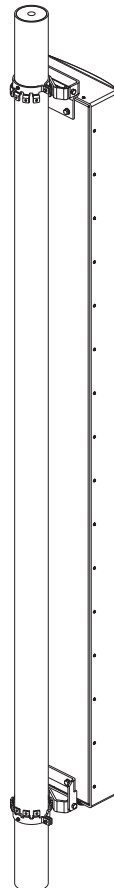

Optional mounting kit for mounting up to three antennas to any pipe measuring from 3.5" to 4" in diameter. Order one kit for each antenna.
